BECOME A FAMILY MEMBER

OFCA is a state-wide membership organization that strives to support, educate and advocate for adoptive, foster, kinship, primary and respite families (also known as resource families) in Ohio. Founded in 1975, OFCA is the voice of Ohio's resource family and is the only membership based state-wide organization representing the interests of resource families across Ohio.

OFCA members tap into the resources of a long established advocate to collaborate with local and state child welfare experts and leaders, connect to the pulse of resource families and engage in a platform that helps raise family's collective voice to affect change and influence within the child welfare system.
